**Motivation:** Many life science laboratories are still using Excel files to organize their data. This leads to a huge workload for maintenance as well as an inconvenient access and update routine. POODLE provides an easy-to-use and powerful interface to improve the work of your lab.

**Supplementary information:** Supplementary data are available at [https://github.com/derjedi/Bioinformatics-Assigments/tree/master/poodle\\_project](https://github.com/derjedi/Bioinformatics-Assigments/tree/master/poodle_project) online.
